Vitru Limited Reports the Results of the First Intake Cycle of 2022

Florianópolis, Brazil, June 6, 2022 – Vitru Limited, or “Vitru” (Nasdaq: VTRU) reports record results of its first intake cycle of 2022.

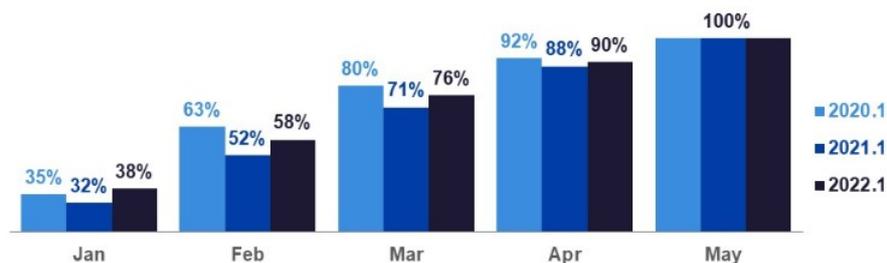

The digital education undergraduate intake cycle of **Uniasselvi** increased **28.6%** when compared to the same period of the previous year, purely on an organic basis, reaching **223.9 thousand new students**.

This result confirms the resilience of its hybrid model. This substantial growth was despite the high comparison bar of the first intake cycle of 2021 and already takes into account the slight shift in the monthly distribution of the intake, which was more back-ended in the first cycle of 2021, as shown in the following chart:

Distribution of intakes per month within each cycle

“As previously disclosed in our last earnings call, the result of the intake cycle is in line with what we were expecting, given that the 2021.1 intake cycle was more back-ended considering the delay in the ENEM exam calendar”, according to Carlos Freitas, Chief Financial Officer.

In the case of **Unicesumar**, the first digital education undergraduate intake cycle of 2022 was even more impressive, increasing **54.6%** when compared to the same period of the previous year, reaching **219.7 thousand new students** in the 2022.1 cycle vs the 142.1 thousand students enrolled in the 2021.1 cycle.
